Dear Sirs:

Re: Nelson Barbados Group Ltd. v. Cox et al

Please be advised that a threat was recently sent to a blog operated by the family of Marjorie Knox known as Keltruth. The threat said:

“KISS-YUH-RASSHOLE | IP: 69.73.224.21

Fuck Marjorie Knox.

She would gotta be a rasshole idiot, oddawise she would still got land and property today.

A f**king idiot like she should keep she rasshole quiet.

Rasshole whore like she.

Wait, you remember dah time when she had syphilis?

And one uh she children din dead from AIDS?

Stinking ole bitch. Tell she tuh keep she rasshole quiet!!!

If we evah fine she anyway bout Barbados we gine bus open she fucking head wid a big rock.

Blasted fucking old money-grabbing retarded bat.

Yuh rasshole!!!!"

It was delivered by internet transmission on November 14th, 2007 at 5:29 p.m. our time which is Eastern Standard time. It has been determined that it was from IP address 69.73.224.21. The best information available to us - we cannot access the Internet Server as it appears to be in Barbados - is that this IP address originates in Barbados and is operated by Cable and Wireless in Barbados. This company appears to be a UK company which operates the Internet service in Barbados.

We have reported this threat to Commissioner Dottin of the Barbados Police who presumably will quickly obtain legal process to assist in tracking the originator of this threat. We are asking that, in the interim, you ensure that you freeze and preserve all internet records for an 11 day period which straddles the date the threat was sent. This will allow the Barbados Police, the Barbados government regulating agency, and your specialists to track and hopefully charge and arrest the perpetrator. Please ensure that this is followed up immediately as the family of this 85 year old frail lady resident in Barbados are, understandably, in fear for her life.

We would appreciate being kept apprised of your progress in this matter and especially conformation that the records have been preserved as further investigation and production will undoubtedly be required in the subject law suit and possibly criminal proceedings.

Yours very truly,

CRAWFORD, McKENZIE, McLEAN,

ANDERSON & DUNCAN LLP
